REFERENCE PERSON

Mr. Pradchaya Areerom
☎ 08-6865-8824

SKILLS

Front End
1. JQuery ,Javascript
2. React (Next.JS)
3. HTML , CSS (Bootstrap, Tailwind)
4. Netsuite Suitescript

Back End –
1. ASP.net (C# Web form & MVC),
2. PHP , Laravel
3. JAVA , Springboot
4. Netsuite Suitescript

Database –
1. MS SQL
2. MySQL
3. Oracle
4. MongoDB

Software
1. Oracle Netsuite (ERP)
2. Github

CERTIFICATES

Netsuite Suitefoundation **-** 2024

1. Experiences in C# ASP.net Software Development and Design for about 10+ years but open to learn a new technologies
2. Experiences in cloud-base ERP software (Oracle Netsuite) customization called for 6+ years
3. Participated in almost process of SDLC (Requirement Gathering, Prototyping , Development , UAT and User Training) so I also have the skills of Designing and Analyzing
4. Documentations ,presentations and supporting for almost systems that I developed
5. Usually work with complicate business process
6. Open to learn new technology

.

EXPERIENCES

Product Development Manager/Developer

Teibto (Thailand) | Nov 2023 – Present

- Oversee and manage all product development tasks within the team (13 peoples)
- Identify and implement solutions to address system limitations.
- Develop and maintain detailed program specifications and documentation.
- Configure and customize **NetSuite ERP** using **SuiteScript** to meet business requirements.

Key Projects:

- **Manufacturing Bundle** – Prebuilt software to support manufacturing operations in **NetSuite**.
- **Approval Control Bundle** – Workflow automation and approval management solution.
- **Warehouse Management Bundle** – Inventory tracking and logistics optimization software.
- **Bank Integration Bundle** – Seamless integration between **NetSuite** and financial institutions

Related Clients : DoubleA , Chabaa , Pi Security,etc.

Senior Technical Specialist

Teibto (Thailand) | Nov 2021 – Jan 2023

- Designed and implemented **NetSuite ERP** configurations and customizations using **SuiteScript**.
- Resolved system limitations by developing innovative technical solutions.
- Created detailed **program specifications** and technical documentation.
- Led and mentored the development team, fostering a collaborative environment.

Key Projects:

- **Manufacturing Bundle** – Preconfigured solution for **NetSuite** manufacturing clients.
- **Report Customization Bundle** – A flexible reporting tool enabling non-developers to configure reports.
- **Client Change Requests & Support Cases** – Delivered tailored enhancements based on customer needs.

Related Clients : YMF International, Mingo Ice Cream ,Interpharma, MP Group ,etc.

Senior Developer

Teibto (Thailand) | Aug 2018 – Oct 2021

- Developed and customized **NetSuite ERP** using **SuiteScript**.
- Designed and built software applications in **C#**.
- Addressed and resolved system constraints with scalable solutions.
- Authored **technical documentation** and program specifications.

Key Projects:

- **NetSuite – ERPLY POS Integration** – Connected **NetSuite** with ERPLY POS for seamless transactions.
- **ERP System Integration** – Enabled **ERPLY POS** to interface with clients' ERP systems.
- **NetSuite RESTful API Development** – Developed RESTful services for system interoperability.

- **Client Change Requests & Support Cases** – Managed enhancements and issue resolution.

Related Clients : Pomelo , Grand Home Mart, SCG Heim , etc.

Senior System Developer

E-Synergy (Thailand) | Dec 2017 – Jul 2018

- Designed and developed software using **C#, ASP.NET, and Angular**, catering primarily to the retail sector.
- Acted as a **System Analyst**, gathering requirements and defining solutions.
- Produced project documentation and delivered client presentations.

Key Projects:

- **Central Family Mart – Data Export System** – Automated master data transfer from HQ to branch stores.
- **Daikin Industries – Employee Data Bank** – Centralized employee data platform built with **Angular**.
